

This popular, award-winning landyacht from New Zealand is now firmly established as the de facto standard.

The universal grin on every blokarters face is a testimony of the ease-of-use and comfortable acceleration for sailors and non-sailors alike.

Various sail sizes and surfaces allow karting in a wide variety of locations and wind strengths.

And the fun continues with duo and tandem options, standard and pro races, fat tyres, ice skates and new friends worldwide.

Uniquely supplied in own suitcase and weighing 27kg all up. Supplied with assembly and action videos on DVD.

**Newseas Blokarts**
